

LumiScapes by Cooleedge is a portfolio of standard products that deliver the unique immersive illumination experience of the outdoors at price levels that enable their use in everyday spaces.

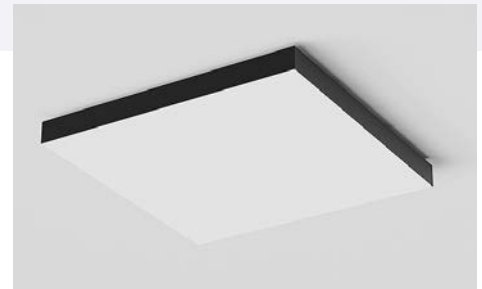

FABRICORE

FABRICore is a large area acoustic LED luminaire available for general area illumination applications that combines immersive illumination with acoustic performance to fit any budget.

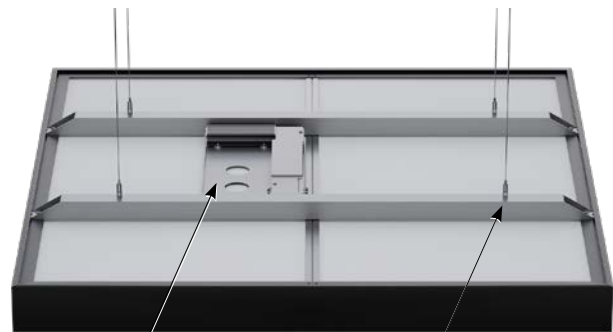

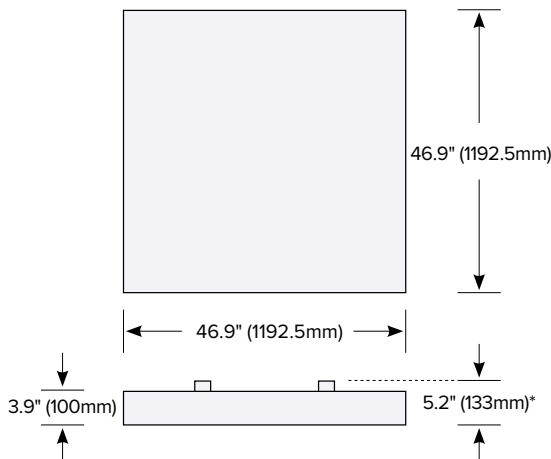

FABRICLOUD

FABRICloud is a large area acoustic LED luminaire that quite literally brings the feeling of the outdoors to interior spaces with vibrant skiescapes. Capture a piece of the sky with a single luminaire or create an expansive scenic canopy of natural illumination by grouping luminaires together in preset scenes, all without breaking the budget.

FABRIQUIET

FABRIQuiet is a sound absorbing panel that is the perfect acoustic complement to FABRICore, delivering the same exceptional noise reduction capability with matching aesthetics to ensure design continuity throughout your space.

Power & Control tray*
(may be removed and mounted to ceiling)

Suspended Mounting Option (LACC-SP-K)

CERTIFICATION

LumiScapes by Cooledge

A CHOICE OF MOUNTING OPTIONS TO FIT YOUR SPACE

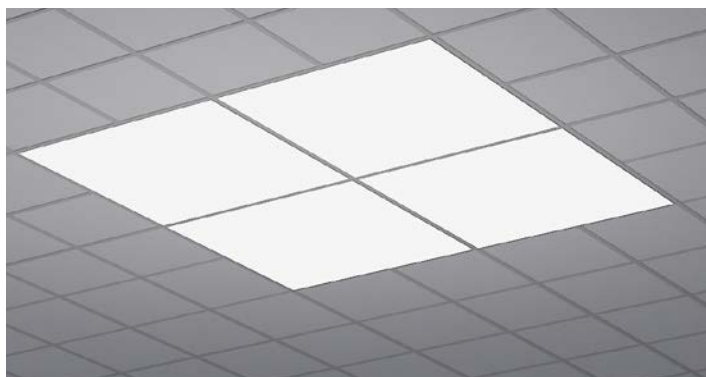

SUSPENDED

Ideal for open areas, suspended models can be clipped together to form larger luminous elements that provide significant noise reduction. (Mounting kit required)

SURFACE MOUNT

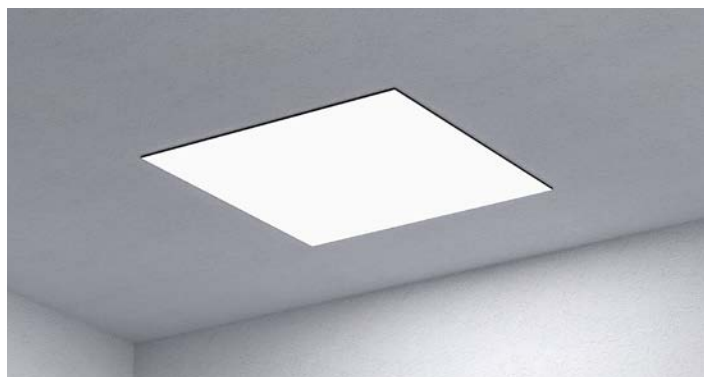

Mounts directly to drywall or plaster. Designed to allow luminaires to be mounted side-by-side to create large luminous areas with negligible lines.

GRID (T-BAR)

Lay-in mounting for drop ceilings enables you use a single luminaire over task areas or multiples to create a virtual skylight anywhere you want.

(Mounting kit required for imperial T-bar ceilings to allow lay-in mounting)

RECESSED

Ideal for corridors or low ceilings, recessed models are mounted within the ceiling to deliver uniform illumination.

(Mounting kit required - includes trim)

FABRICore

FABRICore is a budget-friendly, large area acoustic LED luminaire that may be used as a singular fixture but has been designed as the core unit for grouping to form large luminous ceiling elements.

GROUP LUMINAIRES TOGETHER TO
CREATE LUMINOUS CEILING CLOUDS

USE SINGULAR UNITS TO DELIVER
A UNIQUE IMMERSIVE EXPERIENCE

COOLEdge PERFORMANCE AT MAINSTREAM PRICES

- A removable fabric diffuser brings a unique design aesthetic to spaces normally illuminated with luminaires incorporating plastic lenses.
- Bring the feeling of outdoors to interior spaces with these large standalone luminaires or group the core units together to create luminous ceiling clouds.
- Acoustic performance not found in other contractor grade luminaires reduces noise and saves you money on other materials.
- Uniform, high quality immersive illumination that is the trademark of products from Cooleedge.
- Removable power & control tray to simplify installation in cases where direct access to the luminaire is challenging.

PERFORMANCE HIGHLIGHTS

- Size = 46.9" x 46.9" (1192.5mm x 1192.5mm)
- Light Output = 10,300 lm
- CCTs = 3000K, 3500K, 4000K
- CRI > 90
- NRC = 0.65-0.95 (dependent upon mounting option)

FABRICloud

FABRICloud is a large area acoustic LED luminaire that quite literally brings the feeling of the outdoors to interior spaces with vibrant skiescapes. Capture a piece of the sky with a single luminaire or create an expansive scenic canopy of natural illumination by grouping luminaires together in preset scenes, all without breaking the budget.

DISPLAY A BLUE SKY WITH A SUNBURST

SOAR THROUGH A TREETOP CANOPY

ADD MYSTERY WITH A SHADOW SCENE

COOLEdge PERFORMANCE AT MAINSTREAM PRICES

- Vibrant illuminated nature scenes transform any space into an oasis that delivers an experience of connection and wellness for people.
- A choice of three (3) skyscape scenes each available in five (5) configurations from a single 4x4 (1200x1200) luminaire to a 12x8 (3600x2400) canopy.
- Exceptional acoustic performance reduces noise and saves you money on supplementary acoustic materials.
- Mounting options to suit virtually any ceiling
- Combine with FABRICore luminaires to deliver immersive illumination for general lighting that includes elements that connect directly to nature.

PERFORMANCE HIGHLIGHTS

- Size = 46.9" x 46.9" (1192.5mm x 1192.5mm)
- NRC = 0.65-0.95 (dependent upon mounting option)

Light Output	Sky	Trees	Shadows
Luminous Flux (lm)	1800-5000	2000-3900	3300-6300
Avg. Luminance (cd/m ²)	55-160	60-125	100-200
Max. Luminance (cd/m ²)	220-265	220-250	250-275

Values shown are a range per individual luminaire

FABRICloud

A VARIETY OF SCENES FOR A VARIETY OF EXPERIENCES

FABRICloud is available in a wide range of sizes and configurations to fit virtually any ceiling.

SKY

2X3

12' x 8' (3.6m x 2.4m)
canopy displaying a full blue sky featuring a sunburst

1X1

4' x 4'
(1.2m x 1.2m)
small skylight

1X2

8' x 4' (2.4m x 1.2m)
linear skylight

1X3

12' x 4' (3.6m x 1.2m)
corridor of blue sky and clouds

2X2

8' x 8' (2.4m x 2.4m)
skylight

TREES

2X3

12' x 8' (3.6m x 2.4m)
canopy that soars through the treetops

1X1

4' x 4'
(1.2m x 1.2m)
small skylight

1X2

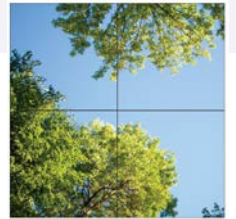

8' x 4' (2.4m x 1.2m)
linear skylight

1X3

12' x 4' (3.6m x 1.2m)
corridor of treetops in the sky

2X2

8' x 8' (2.4m x 2.4m)
skylight

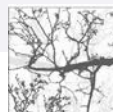

SHADOWS

2X3

12' x 8' (3.6m x 2.4m)
canopy creates a mysterious atmosphere while delivering more illumination

1X1

4' x 4'
(1.2m x 1.2m)
small skylight

1X2

8' x 4' (2.4m x 1.2m)
linear skylight

1X3

12' x 4' (3.6m x 1.2m)
corridor of overhead branches

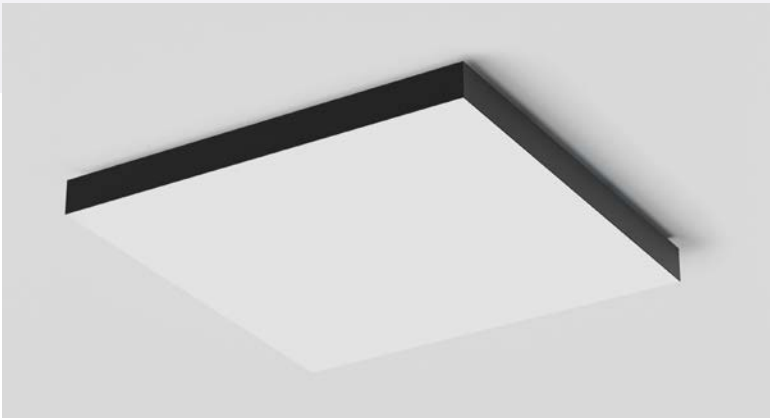

2X2

8' x 8' (2.4m x 2.4m)
skylight

FABRIQuiet

FABRIQuiet is a sound absorbing panel that is the perfect acoustic complement to FABRICore, delivering the same exceptional noise reduction capability with matching aesthetics to ensure design continuity throughout your space. Use on their own or clip together to form large clouds areas. Mix & match with FABRICore luminaires to combine immersive illumination with a complete acoustic solution for open area designs in a variety of applications.

UNIQUE DESIGN AESTHETIC... EXCEPTIONAL VALUE

- FABRIQuiet panels incorporate a fabric face to complement the fabric diffusers of FABRICore luminaires
- Use in spaces where sound absorption needs are high but illuminance levels and energy consumption are low – meaning fewer FABRICore acoustic luminaires are contributing to noise reduction
- Deliver a full immersive illumination experience in everyday spaces with FABRICore luminaires and provide additional noise reduction with FABRIQuiet panels without breaking the budget
- FABRIQuiet offers a unique design alternative to acoustic clouds, panels, or baffles at highly competitive prices

PERFORMANCE HIGHLIGHTS

- Size = 46.9" x 46.9" (1192.5mm x 1192.5mm)
- NRC = 0.65-0.95 (dependent upon mounting option)

COOLEGE IS LEADING A NEW REVOLUTION IN LIGHTING

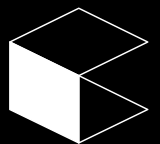

Cooledge fuses light with architectural surfaces to change the way illumination is applied and experienced. The company's products range from integrated lighting systems and luminaires to highly customizable luminous surface solutions, all exploiting the advantages of LEDs beyond conventional "point and line" fixtures to maximize design versatility – whether for large-scale specialty projects or common everyday spaces. Cooledge luminous surfaces have transformed thousands of environments worldwide, including the offices, venues and retail properties of esteemed global brands. The company is headquartered in Vancouver, Canada and supported by a network of sales agencies and distribution partners throughout North America, Europe, the Middle East and Asia.
